## ATLANTA REGIONAL SUPER HUB FACT SHEET

UPS's new southeast regional super hub in Atlanta is the company's second largest ground package processing facility in the United States and the fourth largest package operation globally. Primarily serving the southeast United States, the facility is one of the new regional sortation and processing centers that provide customers additional market access and capacity when using UPS's global smart logistics network.

**Site Area:** 321 acres  
**Building Area:** 1.2 million square-feet (more than 19 football fields)  
**Sort Capacity:** More than 100,000 packages an hour (about 1,700 a minute)  
*Enough packages to stretch three times the height of Mount Everest (29,029 ft.) in one hour*

**Processing Time:** 600 feet-per-minute

**Capital Investment:** More than \$400 million

**Permanent Jobs:** 3,000 full- and part-time (1,250 full-time equivalent)

**Tractor-Trailer Staging:** More than 970 trucks

**Unload Positions:** 104

**Load Positions:** 324

**Length of Conveyors:** 18 miles

**UPS Smart Labels® applied:** Three per second

**Local Delivery Positions:** 288 package cars

**Efficiency:** 30-35% more efficient than older, more manual facilities

**Truck Wash Water Recycling:** Saves about 117,000 gallons/day, or 29 million gallons/year
